Annual Operating Cost Report

2025 · 2,000 Users · WhatsApp Business API Enabled

RCCG City of David

Prepared: May 2026 · Confidential — Internal budget planning

$10,709.78	$11,227.72	$10,629.50	$32,567.01
YEAR 1 ANNUAL	YEAR 2 ANNUAL	YEAR 3 ANNUAL	3-YEAR TOTAL

1. Planning Assumptions

All cost figures are derived from the following baseline assumptions. Adjusting any input will proportionally affect all totals shown.

Parameter	Value	Notes
Total registered users	2,000	All roles — parents, teachers, admins, attendants
Active parent accounts	800	Accounts that receive SMS / Email / WhatsApp
Average children per family	2	Drives check-in volume calculation
Sunday services per month	4	Standard; some months have 5
Service attendance rate	70%	≈ 560 families · 1120 children per service
Monthly check-in events	4,480	Children checked in across all Sundays
WhatsApp API	ENABLED ✓	Meta-approved via Termii BSP agreement
PAYG buffer on Termii	20%	Reserve credit to prevent mid-month disruption
Upfront Termii pre-load	2 months	Safety credit purchased on go-live day
Usage growth (Year 2)	5%	Conservative congregation growth estimate
Usage growth (Year 3)	5% + 10% vol. discount	Termii discount above ~5,000 SMS/month

2. Service Rate Card

Service	Channel	Unit	Rate (USD)	Rate (NGN est.)
Replit Core	Platform / Hosting	per month	**$18.00**	**■29,160**
Replit Reserved VM (1 vCPU / 1 GB)	Compute	per month	**$10.00**	**■16,200**
Termii SMS	SMS notification	per message	**$0.04**	**■65**
Termii Email	Email notification	per email	**$0.01**	**■16**
Termii WhatsApp	WhatsApp Business	per message	**$0.07**	**■113**
Custom domain	Annual renewal	per year	**$15.00**	**■24,300**

■ *WhatsApp rate reflects Meta's Nigeria-destination utility/marketing conversation rate via Termii. Termii SMS rates are standard PAYG; volume discounts available above 5,000 msgs/month.*

3. Year 1 — Detailed Cost Breakdown

MONTHLY COST	ANNUAL COST	FIRST-YEAR TOTAL	COST PER USER
$892.48	$10,709.78	$12,436.25	$5.35
Recurring	12 months	Incl. upfront buffer	/ registered user

3.1 Platform — Replit

Item	Monthly	Annual	Notes
Replit Core (subscription)	$18.00	$216.00	Includes PostgreSQL, 50 GB storage, 3 deployments
Reserved VM — 1 vCPU / 1 GB RAM	$10.00	$120.00	Always-on; handles ~500 concurrent users
Platform Sub-total	**$28.00**	**$336.00**	

3.2 Termii — SMS Notifications

SMS Type	Msgs/Month	Rate	Monthly	Annual
Check-in alert (per child arrival)	4,480	$0.04	$179.20	$2,150.40
Check-out alert (per pick-up)	4,480	$0.04	$179.20	$2,150.40
Emergency broadcast (all parents)	1,600	$0.04	$64.00	$768.00
Admin broadcast (all parents)	800	$0.04	$32.00	$384.00
OTP delegate checkout	224	$0.04	$8.96	$107.52
SMS Sub-total	**11,584**		**$463.36**	**$5,560.32**

3.3 Termii — Email Notifications

Email Type	Emails/Month	Rate	Monthly	Annual
Shepherd Reports (appraisals)	1,600	$0.01	$16.00	$192.00
General notification emails	1,600	$0.01	$16.00	$192.00
Email Sub-total	**3,200**		**$32.00**	**$384.00**

3.4 Termii — WhatsApp Business API ✓ Enabled

Delivered via Termii's Meta-approved BSP agreement. Billed per 24-hour conversation window per user.

WhatsApp Type	Msgs/Month	Rate	Monthly	Annual
Check-in & check-out alerts	1,600	$0.07	$112.00	$1,344.00
Shepherd Report (monthly)	800	$0.07	$56.00	$672.00
Admin & emergency broadcasts	800	$0.07	$56.00	$672.00
WhatsApp Sub-total	**3,200**		**$224.00**	**$2,688.00**

3.5 Year 1 — Full Annual Summary

Cost Category	Monthly (USD)	Annual (USD)	% of Total
Replit Core	$18.00	$216.00	2.0%
Replit Reserved VM	$10.00	$120.00	1.1%
Termii SMS	$463.36	$5,560.32	51.9%
Termii Email	$32.00	$384.00	3.6%
Termii WhatsApp	$224.00	$2,688.00	25.1%
PAYG Buffer (20% on Termii)	$143.87	$1,726.46	16.1%
Custom domain	$1.25	$15.00	0.1%
ANNUAL RECURRING TOTAL	**$892.48**	**$10,709.78**	**100%**
One-time upfront Termii pre-load (2 months)	**—**	**$1,726.46**	**—**
FIRST-YEAR TOTAL (incl. pre-load)	**—**	**$12,436.25**	**—**

3.6 Pay-As-You-Go (PAYG) — Top-Up Guide

Scenario	Action	Recommended Top-
Normal month	No action. Balance auto-deducted.	—
High-attendance Sunday	Monitor dashboard. Top up if balance < 1× monthly Termii.	$359.68
Emergency broadcast month	Pre-load extra credit before any major church event.	$719.36
Balance drops below buffer	Top up immediately to avoid missed notifications.	$863.23
Annual budget cycle	Review actual vs estimated. Adjust assumptions she	2 months = $1,726.46

■ *Set a Termii low-balance alert at $863.23 in your Termii dashboard. Top-up bundles: $10 / $25 / $50 / $100 / $200. Unused credit rolls over with no expiry.*

4. Three-Year Cost Projection

Year 2 assumes 5% growth in users and messaging volume. Year 3 applies a further 5% growth plus a 10% Termii volume discount (available once monthly SMS consistently exceeds 5,000 messages).

YEAR 1	YEAR 2	YEAR 3	3-YR TOTAL
$10,709.78	$11,227.72	$10,629.50	$32,567.01
Annual recurring	+5% usage growth	+5% growth, –10% discount	Recurring (excl. pre-load)

Monthly Cost by Year

Cost Item	Yr 1 Monthly	Yr 2 Monthly	Yr 3 Monthly
Replit Core	$18.00	$18.00	$18.00
Reserved VM (1 vCPU/1 GB)	$10.00	$10.00	$10.00
Termii SMS	$463.36	$486.53	$459.77
Termii Email	$32.00	$33.60	$31.75
Termii WhatsApp	$224.00	$235.20	$222.26
PAYG Buffer (20%)	$143.87	$151.07	$142.76
Custom domain	$1.25	$1.25	$1.25
Monthly Total	**$892.48**	**$935.64**	**$885.79**
Annual Total	**$10,709.78**	**$11,227.72**	**$10,629.50**

Annual Overview — 3-Year Summary

Year	Platform	Termii (all)	Buffer	Domain	Annual	Cumulative
Year 1	$336.00	$8,632.32	$1,726.46	$15.00	$10,709.78	$10,709.78
Year 2	$336.00	$9,063.94	$1,812.79	$15.00	$11,227.72	$21,937.51
Year 3	$336.00	$8,565.42	$1,713.08	$15.00	$10,629.50	$32,567.01
3-YEAR TOTAL	**$1,008.00**	**$26,261.68**	**$5,252.34**	**$45.00**	**$32,567.01**	**$32,567.01**

Note: 3-year recurring total is $32,567.01. Adding the Year 1 one-time upfront pre-load of $1,726.46 gives a full 3-year outlay of $34,293.47 (■55,555,429 est.).

5. Deployment Options — Autoscale vs Reserved VM

This report is costed on a **Reserved VM** (fixed price, zero billing surprises). The comparison below is provided so the finance team can evaluate both options.

Feature	■ Autoscale (PAYG)	■ Reserved VM ✓ Used in this report
Billing model	Variable — per compute second	Fixed monthly fee
Estimated platform/month	~$23–$32	$28.00
Estimated platform/year	~$276–$384	$336.00
Handles 2,000 users?	Yes — auto-scales on demand	Yes — 1 vCPU handles ~500 concurrent ✓
Sunday service peak	Scales instantly, no config	Pre-sized for expected peak load
Quiet weekdays	Near-zero billing — idle ≈ free	Full cost even when idle
Predictability	Variable (±30% estimate)	100% predictable — zero surprises ✓
Database included?	Yes (Core plan — PostgreSQL) ✓	Yes (Core plan — PostgreSQL) ✓
Storage included?	Yes — 50 GB (Core plan) ✓	Yes — 50 GB (Core plan) ✓
Best for	Teams that track usage dashboards	Church finance teams preferring fixed bills ✓
Recommended?	✓ If you embrace monitoring	✓ Recommended for church budgets

■ *Potential annual saving by choosing Autoscale: $60–$120/year (since Sunday compute ~$8 × 4.3 Sundays + $2 weekday idle ≈ $36/mo vs $28/mo fixed). For a church that values predictability, the Reserved VM is the right default choice.*

6. Naira (■) Cost Conversion

Primary figures are in USD. The table below converts key totals to Nigerian Naira at ■1,620 per $1. Update to the CBN rate on the date of budget submission.

Cost Item	USD	NGN (est. @ ■1,620/$1)
Monthly recurring (Year 1)	$892.48	■1,445,821
Annual recurring (Year 1)	$10,709.78	■17,349,850
One-time upfront pre-load	$1,726.46	■2,796,872
First-year total	$12,436.25	■20,146,722
Year 2 annual	$11,227.72	■18,188,912
Year 3 annual	$10,629.50	■17,219,796
3-year recurring total	$32,567.01	■52,758,557
3-year total (incl. pre-load)	**$34,293.47**	**■55,555,429**

Exchange rate disclaimer: NGN/USD fluctuates. Verify at cbn.gov.ng before submitting budgets.

7. Budget Recommendations

#	Recommendation
1	Purchase 2 months of Termii credit upfront ($1,726.46) on go-live day as a safety reserve.
2	Set a Termii low-balance alert at $863.23 so the team is notified before the account runs dry.
3	Use Replit Reserved VM (1 vCPU / 1 GB) for a fully predictable monthly platform bill.
4	Review actual vs estimated Termii usage every quarter. If SMS > 5,000/month, request a volume discount.
5	Apply for WhatsApp Business API via Termii immediately — approval takes 2–4 weeks.
6	Set a calendar reminder 30 days before the custom domain expires to renew on time.
7	Budget $11,227.72 for Year 2 and $10,629.50 for Year 3 (growth + volume discount factored in).

This report was generated from the Shepherd Connect Annual Cost Planner. Figures are estimates based on the assumptions in Section 1. Prepared for RCCG City of David · May 2026.
